About Us

Forklift Licence & Training Courses in Melbourne

At Ozforks, we offer workplace delivery as a cost-effective and convenient method for training and licensing employees. This approach eliminates the need to send employees off site for training, ensuring they can stay on the premises and minimise production loss. Participants will train in a familiar environment, using equipment they'll operate daily under the supervision of licensed operators. They can study online at home with assistance if needed, gaining the necessary knowledge for competency. Combined with extensive training from our experienced trainers, this ensures a positive outcome

Why Get your staff Licenced with Ozforks?

Three good reasons are:

Our Trainers

Our training programs are led by Worksafe registered and highly experienced trainers / assessors with extensive backgrounds in Forklift/Orderpicker operation and safety. They provide personalized attention to ensure students gain the confidence and skills to safely operate forklifts.

Improving Skills

Forklift training focuses on safety and best practices, ensuring employees operate forklifts safely and reducing job-related accidents and injuries.

Compliance

In Australia, operating a forklift legally requires a forklift licence. This complies with OH&S safety standards and regulations to ensure a safer working environment.

Forklift Licence Course Melbourne

At Ozforks Melbourne, we offer an on-site forklift licence course that covers both theory and practical training for safe and efficient operations.

Course Requirements

To enrol in our forklift licence course, you must meet the following requirements:

- **Age:** Applicants must be at least 18 years old to obtain a forklift licence.
- **Identification:** A valid form of identification, such as a driver's licence or passport, is required.
- **English Language:** Applicants must be able to communicate, read & write in English.

Course Content

Our forklift licence course includes:

- **Theory Lessons:** You will learn about safety regulations, forklift operation, load handling, and stability.
- **Practical Training:** Gain hands-on experience operating a forklift under the supervision of licenced operators within the workplace and our qualified instructors.
- **Assessment:** Successfully complete a written and practical assessment to earn your forklift licence.

Forklift Driver Course & Training – Get Certified in Melbourne

Our **forklift driver course** provides the essential training needed to operate safely and efficiently. At Ozforks, we offer professional **forklift driver training**, ensuring that participants gain both theoretical knowledge and hands-on experience in a real-world setting (their workplace). Whether your staff are beginners or looking to refresh their skills, our training programs are designed to meet both newcomers and experienced operators alike.

For experienced operators, our 1-day forklift licence program offers a fast-track option to becoming licensed. This intensive training includes online self-paced studies prior to the face-to-face course which will include safety guidelines, load handling, and forklift operation techniques, ensuring all legal requirements are met.

Why Choose Ozforks for Your Forklift Licence Training?

Trainer / assessors

Our training programs are led by Worksafe registered and highly experienced trainers / assessors with extensive backgrounds in Forklift/Orderpicker operation and safety. They provide personalized attention to ensure students gain the confidence and skills to safely operate forklifts.

Hands-On Training

At Ozforks, we believe in learning by doing. Our courses include self-paced online studies, during which participants will be taught to operate equipment in a controlled environment, allowing them to build their skills and comfort level.

Nationally Recognised Certification

On successful completion of our courses, students will be issued with a nationally recognised Statement of Attainment with the relevant Units of Competency. Students will also be given a temporary Worksafe Forklift licence which is valid for 60 days. Students will be able to

Comprehensive Curriculum

We offer a thorough training program that covers all critical aspects of Forklift operation, including safety regulations, equipment types, and operational best practices. Our curriculum is designed to prepare students for a successful assessment outcome.

Flexible Scheduling Options

We understand that teams have different commitments, so we offer flexible scheduling for our training courses. This makes it easy for you to find a time that fits your busy work schedule.

Clients & students

Our clients and students consistently praise the quality of our training programs and the supportive learning environment we provide. We take pride in our students' success and their positive experiences with Ozforks.

Commitment to Safety

Safety is our foremost priority. We not only teach students how to operate a forklift but also emphasise the importance of safety practices in the workplace, cultivating a strong safety culture in your future employment.

Trainer / Assessor

Meet our founder

Our principal Peter Bruce started OZFORKS Melbourne in 2001 after working 18 years in the transport & warehousing industries.

Peter identified a need for a training provider that could provide:

- Great customer service
- Competitive rates
- and most importantly quality training.

OZFORKS has been in the service industry for over 25 yrs, establishing strong long-term partnerships with many satisfied businesses and individuals in this time.

We have access to a highly experienced team of trainers & assessors, all Worksafe registered with many years of experience in their field. Our trainers have backgrounds in TAFE & RTO sectors, ensuring their extensive experience and unique abilities will guide you or your staff through training requirements to ensure a successful outcome.
