## Client Testimonials

< >

The boys from Dr. Garden did a great job. I had a job which was extremely time critical. They came ahead of schedule, finished ahead of schedule, and did a fantastic job to boot. I would definitely recommend Gill and the team. The boys on site had really great attitudes and were a pleasure to have in my home.

C. Kornie Erskineville

Outstanding results, professional and personal service. Gill and the team at Dr Garden transformed our arid and unusable outdoor space into a lush, tranquil oasis, customised to our personal tastes and privacy needs. They installed a full irrigation system, built beautiful custom-fit wood planter boxes and floating herb garden shelves, and helped us choose the best plants for our space. We were impressed with their knowledge of landscaping and botany, pride in their work, and focus on customer service. The team exceeded our expectations at every step, from the initial consult to installation to ongoing maintenance and follow-up.

## FAQ

What is the Dr Garden ethos?

+

Why is residential landscaping important?

+

About Us

To us, landscaping is more than installing a deck, pergola, or a garden. Our understanding of Landscaping and horticulture sets us and our services apart from our competitors. Our main goal is to help our clients grow their vision whilst thinking about the most cost effective solution.
