

Preservation Of Capital. Leading Risk Adjusted Returns.

Rixon Capital is an award-winning boutique private credit manager focused on providing investors with reliable income while prioritising capital protection. We achieve this through a diversified portfolio of structured, secured loans to Australian and New Zealand SMEs, targeting the underserved emerging corporate market.

Founded in 2022 by a seasoned investment team with backgrounds in high-yield private debt, private equity, and corporate & investment banking, Rixon Capital identified an opportunity to bring institutional-grade underwriting expertise into the underbanked corporate sector to generate superior risk-adjusted returns for investors.

Rixon Capital is a leader in industry best practices for private credit reporting and disclosure, committed to transparency to give investors clear insight into our performance.

Our Funds

Rixon Capital manages two private credit strategies focused on offering institutional, non-dilutionary debt solutions to the underbanked Australian SME sector.

Rixon Capital fund strategies are underpinned by two key tenets:

- A focus on capital preservation
- Delivering investors a leading risk-adjusted return via a scarcity premium vs a risk premium

We deliver targeted returns through prescriptive lending strategies, aligning each private credit fund strategy with a specific risk profile.

Rixon Income Fund

Senior secured, asset-backed, income strategy

100.0% – 120.0% p.a. Target Return (net of fees)

Cash distributions paid monthly

1-year net return: 11.66%
