## Why CFOs & Finance Leaders Choose Think Numbers

We help CFOs and finance teams leverage AI-powered automation to eliminate inefficiencies, enhance forecasting accuracy, and unlock real-time financial insights.

We blend deep finance experience with cutting-edge tech savvy. Our consultants have sat in the shoes of CFOs and FP&A leads – we speak the language of business, not just IT. From implementing AI-driven tools to providing fractional CFO guidance, we deliver solutions that are practical, scalable, and tailored to your needs. We've helped ASX-listed companies and high-growth startups alike achieve measurable results, such as reducing manual effort by 40–60% and shaving several days off reporting timelines. Our mission is simple: make your finance function smarter, faster, and more strategic.

## Good Business Planning Ensures Success

## Who We Help

FINANCE AI & AUTOMATION SOLUTIONS

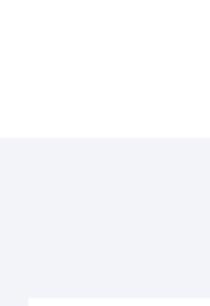

### CFOs & Finance Executives

Overwhelmed by legacy systems and mounting pressure to deliver insights? We modernize your finance systems and processes, giving you timely information and peace of mind to focus on strategy.

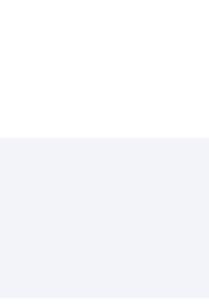

### FP&A Leads & Heads of Operations

Struggling with scattered data and inconsistent reports? We integrate planning and analytics tools to create a single source of truth, so your team can produce reliable forecasts and actionable operational dashboards.

### Startup Founders (FinTech / SaaS)

Lacking senior finance support or robust systems as you scale? Our fractional CFO services provide on-demand strategic finance leadership – from cash flow planning to investor reporting – without the full-time cost, setting you up for sustainable growth.

### Consulting & Tech Partners

Need a trusted finance transformation specialist to augment your projects? We partner with consulting firms and technology providers to deliver seamless, integrated solutions for mutual clients, marrying our finance expertise with your services to ensure successful outcomes.
