About Us

Unbeatable Price Superior Strength Absolute Quality

At The Retaining Wall Company, we believe retaining walls should be more than just functional – they should be strong, stylish, and built to last for generations.

We are proud manufacturers and suppliers of Stronglock retaining walls, garden edging, and fence plinths. For over 26 years, we've been providing Perth homeowners, landscapers, and builders with retaining wall solutions that combine the natural beauty of limestone with the unmatched strength of reinforced concrete.

Stronglock products are built to outperform – offering an industry-leading 30-year guarantee, compared to the typical 6 years offered by others.

Why Choose Us

Strong Lock offers the strongest DIY retaining walls in Perth available today, including DIY modular walls. Combining the aesthetic appeal of limestone with the enduring strength of steel-reinforced concrete panel retaining.

Durable Strength & Hardness

Our **DIY wall panels** have an impressive strength and hardness rating – much higher than the industry standard ratings. We use steel reinforcing rods throughout our posts and panels to guarantee stronger **twin side retaining walls**.

Superior Aesthetic Finish

Our retaining walls have the distinct look and finish of high-quality limestone walls. Our **modular wall panels** resemble a replica of natural limestone blocks, giving your property a clean and polished look.

Cost Effective Option

We provide you with an excellent and low-cost solution for **DIY retaining walls in Perth** that resemble expensive limestone brick walls. We offer a wide variety of heights to cater to diverse needs. Choose a **DIY modular wall system** that best suits your requirements.

Easy To Assemble & Install

Strong Lock DIY retaining wall blocks are quick and easy to install. Build a retaining wall to enhance your garden space within one weekend. It is easy to do and doesn't require any professional services.
