#### Why Choose us?

### We do not buy from the open market & traders.

Empire Food Co started in 2011 on the Gold Coast with a simple idea – make pizza properly, or don't make it at all. What began as a small local operation is now trusted by over 650 supermarkets, but our values haven't changed.

Every pizza is still handmade, because care can't be automated. We use real ingredients because families deserve honesty in their food. Stone-baked for flavour you can smell before you even open the box. Built on consistency, because trust is earned one pizza at a time. Chosen by households who care about what they feed the people they love. We don't chase trends – we focus on doing things right.

From our Gold Coast beginnings to tables across Australia, quality has always led the way. When you choose Empire Food Co, you're choosing food made with heart, not shortcuts.
